Need Help? We've made a "Build your buggy" video guide for you... Please visit: [www.breezeboardpro.com/knowledge-base/](http://www.breezeboardpro.com/knowledge-base/) to view it.

OK, lets build your buggy...

1 Attach the 4 **Rubber Protector Pads** to end of **Arm Holders**.

2 Add **Velcro Straps** to the **Arm Holders** through the **Rubber Protector Pads**.

3 Use the 4 **Long Screws** to attach the **Arms** to the **Arm Holders** & secure in place using the 4 **Nuts** with the **Spanner** & **Allen Key**. Please ensure **Nut** is on the outside.

4 Add **Seat** to the **Seat Platform** using the 4 **Short Screws**. No nuts required. Tighten using the **Allen Key**.

5 Add **Chassis Extender** to the **Seat Platform** adjust to the correct length then tighten using the **Chassis Length Adjustment Screw**.

6 With buggy upside down, add your **Breezeboard PRO** to **Seat Platform** and tighten **Velcro Straps**.

7 Flip the buggy back over and tighten the **Foot Pad Length Adjustment Screws** for each side to complete your **Breezeboard PRO** buggy.

## General Safety Information

Learn to ride in a safe place on flat ground and away from obstacles. Stop completely before getting off. Ride on even ground. Ride in a safe and responsible manner. Do not attempt wheelies or tricks that could result in injury. Be aware of pedestrians, obstacles and uneven ground. Keep your Breezeboard PRO and Buggy clean, dry and free from debris. Be patient and take the time to practice before you ride in a congested environment. Be considerate to others when using your Breezeboard PRO & Buggy. Please make sure you wear a helmet, protective clothing such as elbow pads, knee pads and wrist guards and also gloves to protect your hands and fingers when riding. Don't ride through puddles. Don't allow untrained riders to ride your Breezeboard PRO Buggy. Don't ride in a careless manner as serious injury could occur from misuse or worse you could break your Breezeboard PRO Buggy. Don't ride on sand or mud, it won't handle and we don't advise it. Don't ride at full speed for prolonged periods as this can make it difficult for the Breezeboard PRO Buggy to maintain balance as well as cause unnecessary strain on the Breezeboard PRO components as well as risk your safety. It is not designed for high speeds. Only one person on the buggy at any one time. Please take your time to understand the controls of the Breezeboard PRO when the buggy is attached. Maintain safe stopping distances at all times. Maximum load 150kg. **Users ride at their own risk.**

Note: If the item is not assembled following the above instructions there could be risks of accident. **Users ride at their own risk.**

## How to ride!

Before sitting on the buggy make sure the Breezeboard PRO is switched OFF. After that sit on the seat making sure you are in a comfortable position. Then raise the arms to the neutral position where the breezeboard is set horizontal to the ground. Then switch on the Breezeboard and you are ready to go! **Always read the General Safety Information first before riding and learn controls in a wide open space.**

### CONTROLS:

Push both handle bars down to go forward.  
Pull both handle bars back to slow down, stop or reverse.  
To turn, push one side down.
